Possibly. Please contact INR's customer-service office at 1-877 246-6336 or by email at info@biocorp.com. The customer-service office can tell you if INR has approval for your profession.

COURSE SUMMARY

"Deconstructing Anxiety" is a new approach for rapidly uncovering the root causes of anxiety. It introduces powerful techniques for releasing the resistances that keep anxiety alive, getting at their source and transforming them into a sense of high purpose and meaning.

There is a "core fear" at the root of all anxiety, expressing itself in five major universal themes of loss:

1. abandonment (loss of love)
2. loss of identity
3. loss of meaning
4. loss of purpose
5. fear of death

We develop our primary defenses as our best attempt to protect ourselves from these fears, but always at too great a cost. This leaves us constantly holding vigil, on the lookout for the resurfacing of the threat. We build our entire personality upon this fear-defense dynamic. When it gets out of control, an anxiety disorder develops. The theory and techniques discussed in this webinar will teach you how to uncover the core fear and chief defense quickly and reliably. Armed with this knowledge, new strategies for dismantling the chief defense are proving to be highly effective. Come prepared for an exciting adventure into the deepest regions of the unconscious, where the hidden fears at the source of our clients' difficulties live, making them available for rapid and deep transformation.

Disclaimer: These live interactive INR presentations provide continuing education for health care and mental health professionals with the understanding that each participant is responsible to utilize the information gained in an appropriate manner congruent with his/her/their scope of licenses. Furthermore, the contents of these presentations are relevant to graduate level counselors; The presenter teaching the program has an advanced degree in the mental health field.
